

I wanted to contact you regarding your consideration of a regulation that would allow Low Power FM (LPFM) stations to take a priority over current FM translator service. I am opposed to such a regulation because it will adversely effect my community's (Vance, Granville, Warren and Franklin Counties) ability to listen to K-LOVE. K-LOVE serves me (and our community) as the only contemporary Christian radio station in this area. If K-LOVE were to be displaced by a LPFM, those of us who prefer to listen to more wholesome lyrics would not have an outlet. Further more, it is the only station, to my knowledge, in my area that provides information about local Christian based events. I believe that a LPFM would just crowd up the air waves with similiar content that can be found on a number of other stations already in existence in my area. Therefore, there is no need for LPFMs. The service that is provided by K-LOVE thru its news, music and annoucement of local events is clearly in the public's best interest. I would urge the Commissioners to forgo any proposal that would force FM translators off the air or that would give LPFMs a priority over FM translator service. Thank you.
